

GRANTS PASS AND VICINITY TELEPHONE DIRECTORY

AUGUST 1951

THE PACIFIC TELEPHONE and TELEGRAPH
COMPANY

SEE INTRODUCTORY SECTION FOR
EMERGENCY CALLS AND OTHER IMPORTANT MATTERS

LONG DISTANCE SERVICE

STATION CALLS

When you will talk with anyone who answers at an individual line, or party line telephone, or private switchboard. Station calls are placed by dialing "Operator", then telling her the city or town, the out-of-town telephone number, if you have it, or the name under which it is listed.

PERSON CALLS

When you want to reach a particular person, or a particular extension telephone, or department connected through a private switchboard. Person calls are placed by dialing "Operator", then telling her the city or town, the out-of-town telephone number, if you have it, or the name under which it is listed, and the name of the person, the extension telephone number, or department you want.

COLLECT CALLS

Upon request, the charges on calls to most points within the United States and its Territories, and to certain foreign countries may be collected at the called station.

RATES TO SOME OUT-OF-TOWN POINTS

(Rates to Points Not Listed May Be Obtained By Dialing "Operator")

NIGHT AND SUNDAY RATES APPLY FROM 6 P. M. TO 4:30 A. M. AND ALL DAY SUNDAY

The Federal Tax is not included in the rates.

Rates are for an initial period of 3 minutes, except that on Station calls of 10 cents to points within Oregon and 25 cents or less to points outside of Oregon the initial period is 5 minutes.

DIAL SERVICE

LOCAL CALLS

Do not start to dial until you hear the dial tone—a steady hum which is heard when the equipment is ready to receive your call.

Dial carefully. Do not hurry or retard the dial.

Dial only the figures of the listed number.

TO CALL ANOTHER PARTY ON YOUR OWN LINE

GRANTS PASS—If you have a Two or Four Party Line, dial "Operator" to obtain assistance.

If you have Suburban or Rural Line Dial Service, dial the desired number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

ROGUE RIVER—Dial "Operator" to obtain assistance in calling other parties on your line.

VOICE RECORDING SIGNAL

A short high "beep" tone heard on the telephone about every 15 seconds means that the person with whom you are talking is recording your conversation by means of his electrical recording machine connected to the telephone line.

This signal is provided by the Telephone Company for your protection. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects his recorder the signal is no longer heard.

The "beep" is produced automatically by the device used to connect the recorder to the telephone line. It stops when the recorder is disconnected. Use of a recorder without this signal is unlawful.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

Alloys

D & D Welding Serv 722 Hy 199 Grants Ps-3952

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be done over . . . does not monopolize the telephone at the inconvenience of others . . . teaches her children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

IT PAYS TO ANSWER
TELEPHONE CALLS

PROMPTLY

Prompt answering of
a telephone's ring is
thoughtful, courteous
—and good business.

*When you want to
telephone*

PLEASE LISTEN FOR THE "DIAL TONE"

—dial carefully—turn the dial all the way and then let it go back to position naturally, without forcing. These simple steps enable you to dial telephone numbers speedily and with precision.

A store may not immediately come to the mind of a prospect when special services are desired, such as are offered by a Beauty Salon, Radio or Watch Repairing Department. Many establishments, realizing this, advertise under several classifications in the Classified Directory. Thus they direct more business their way.

PRECISELY RIGHT!

Best results from concrete demand that the concrete be right, from the start. That is why knowing builders specify our Ready Mixed Concrete. First, we use only top-grade materials. Then we measure the proportions as strictly as if they were metered. Then, we mix them all, completely — mechanically!

Good rules in dialing: Wait for the dial tone. . . . Dial accurately, without forcing. . . . Let the dial return naturally to starting position. . . . If you encounter a "busy," wait a reasonable time and try again.

Receiver
OFF the HOOK
interrupts your
Telephone Service

Hundreds of Corvallis telephone users missed important calls last year because they left the receiver off their telephone off the hook.

A thoughtful party-line user answers her telephone bell promptly . . . places her own calls accurately, so that they do not have to be done over . . . does not monopolize the telephone at the inconvenience of others . . . teaches her children, too, the little telephone kindnesses . . . and when her telephone is not in use, sees that it is hung up.

Be sure you include concealed telephone wiring and handy telephone outlets in the new home you're planning.

Make "Phone Plans" part of your Home Plans... *built-in telephone facilities are inexpensive*

Whether that dream home you're going to build is a mansion or a simple cottage, the cost of installing built-in telephone facilities during construction will be well within your budget.

Conduit (that's a metal tube concealed in the wall through which wires are drawn when your telephone service is installed) leads to locations where telephone instruments would be handiest and most serviceable. Whether your immediate need is for a single telephone, or for several, you meet it more practically and economically this way. It permits locating the instruments where most convenient. You avoid marring finished walls or bringing exposed wire along the baseboards.

We maintain an Architects' and Builders' Service at no cost to you to help you match good "Phone Plans" with your preferred Home Plans. Call on us before building begins.

The Pacific Telephone and Telegraph Co.

**How you can prove you're a thoughtful party line neighbor...
It's easy! Just check off your good points.**

For example: You always make sure the line is not in use before dialing or jogging the receiver holder up and down to get the operator

When your call is urgent, and the line is busy, you politely explain the circumstances to the person using the line

You always see that the receiver is replaced when you're not using the telephone

And you never, never talk longer than necessary or make an extended string of telephone calls all at once

And you often remind your children about these courtesies, too

*So, of course you are a thoughtful party line neighbor!
And we want to thank you very much for being one.*

The Pacific Telephone and Telegraph Company

*Year after year the
YELLOW PAGES save you time*
